To whom it may concern

Felix Risk Business Consultants

This letter serves to confirm that we have been using Felix Risk Training Consultants (FRTC) for the past 8 (eight) years in the capacity as our chosen banking supplier.

Bernadette and her team of facilitators were nothing other than spectacular. They go beyond what is required and always think out of the box with new ideas and strategies. Felix Risk Training Consultants are extremely innovative in their training deliver and are a future focused training institution.

Most of our training is learnership training of which comes huge admin areas which is required from the SETA – this is where FRTC is amazing as we never have to worry about a report being late or not submitted. In fact they even go as far as completing the areas that we as an employer are responsible for and assisting in timely submissions for all our SETA funded training initiatives.

Their service has been extremely professional, and they are always willing to go the extra mile for the upskilling of youth. Felix Risk Training Consultants are sincere in their undertakings and work with a high level of personal integrity for the delivery of our programs.

Our staff that have been trained by them always comment on their high level of material and experience in the field.

I would highly recommend this team of experts for all training needs as they have always exceeded our expectations.

Should you need any further clarity please feel free to contact me.

Regards
