Reference letter

To whom it may concern

Felix Risk Training Consultants has been assisting SBV Services Pty Ltd for the past four (4) years with the delivery of learnerships, including but not limited to Letsema 2018-2019 and Kuyasa 2020-2021 work-based learning programmes. During this time, we have found Felix Risk Training Consultants extremely efficient, conscientious, and always looking to improve their service. All learning moved successfully from contact as historically implemented, to now online.

We believe that their knowledge in this field leads them to great success and we do recommend considering Felix Risk Training Consultants for your training needs.

We are satisfied with their work and the commitment with which they do it.

Felix Risk Training Consultants' staff have excellent customer service skills and always deliver on their promise.

They have been a pleasure to work with

Yours faithfully

Miffy Moodley
